

Laurel Class

Autumn 2 - Homework

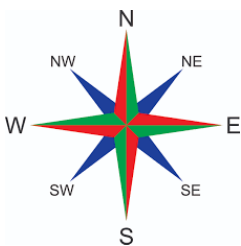

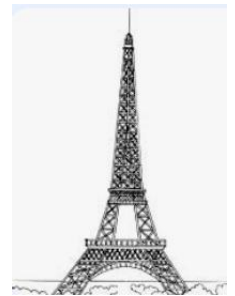

This half term we will be developing our geographical skills and exploring the human and physical features of Europe. In particular, and linked to our work in English, we'll study some features of *Germany*.

Your homework challenge is to create something which showcases your learning about Europe or your geography skills e.g, create and read a map.

You could create:

- A replica of a European landmark, using your own materials
- A food dish from a European country
- A map of your local area with symbols and grid references
- A video of a weather report in your chose area or country
- A travel brochure for your favourite place in Europe

The choice is yours!

We are excited to see what you create. Please bring your homework to school in the week commencing 15th December so that we can share them in class before the Homework Festival that week.
