

Facts and skills I need to learn now

| | |
|--------------------|---|
| Variety of animals | I can name a variety of animals including fish, amphibians, reptiles birds and mammals. |
| Classify diet | I can classify and name animals by what they eat (carnivore, herbivore and omnivore). |

What I will learn next.

| | | |
|--------|--------------------------|---------------------------------|
| Year 2 | Animals including humans | Life cycles and healthy living. |
|--------|--------------------------|---------------------------------|

Vocabulary (words I need to know)

| | | | | | |
|------------|--|---|-----------|--|---|
| Mammals |  Mammal | Mammals grow hair or fur on their bodies. | Fish |  Fish | Fish live and breathe under water. All fish have gills and fins and most have scales. |
| Birds |  Bird | Birds all have a beak, feathers, two legs and wings. | Carnivore |  Carnivore | Animals that eat other animals (meat) are carnivores. |
| Reptiles |  Reptile | Reptiles have dry scales covering their bodies. | Herbivore |  Herbivore | Animals that eat plants are herbivores |
| Amphibians |  Amphibian | Amphibians live in water as babies. When they grow older, they can live on land and in water. | Omnivore |  Omnivore | Animals that eat both plants and other animals are omnivores. |
