Year 2 Knowledge Organiser | Science

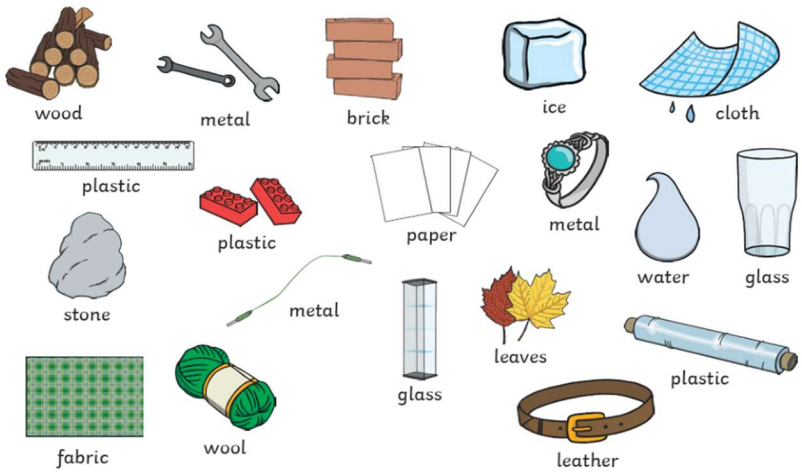

Everyday Materials – What would you use to build a castle?

Cherry Hinton C of E Primary School

Agape
Courage
Thankfulness

Facts I need to learn now

Materials	Different objects are made from different materials.
Properties	Some materials are suitable for a use because of their properties.
Flexibility	Some materials bend. Some are rigid.
Absorbency	Some materials absorb water. Some are waterproof.
Stretchiness	Some materials can stretch. This makes them suitable for some uses.
Recycling	Some materials can be recycled and used again.

What I have learnt already

Year 1	Exploring everyday materials and their properties.

What I will learn next

Y3	Classify rocks based on their properties.
Y5	Compare materials, their properties and uses.

Vocabulary (Words I need to know)
